COVID Update - Parents and visitors on site

Parents, volunteers and visitors are now welcome back in schools providing COVID safe measures are in place and followed. All parents and visitors must COVID-Safe check in, practise physical distancing from other adults, and wear masks when entering school buildings. Students, staff, parents/caregivers and volunteers are also kindly reminded to not attend school if even mildly unwell.

Early student departures

Student attendance - all day every day - is critical to maximising learning and wellbeing outcomes. Parents/caregivers are kindly asked to avoid collecting their children early from school, unless absolutely necessary. Where an early departure is pre-planned, class teachers should be notified via Seesaw at least 24 hours in advance. Our front office staff have a number of key responsibilities to attend to every afternoon and it's critical that our phone lines are also kept clear, so please avoid contacting them 'last-minute' to arrange early student collection, unless an urgent, unforeseen emergency arises.

2022 planning

With our planning for the 2022 school year well and truly underway, we are currently in the process of finalising numbers and developing class structures. While our school is not zoned, many of our neighbouring schools must work within their zoning requirements and we are collaborating with the other schools in our Holdfast Partnership to develop consistent enrolment processes and communication.

Staff development, data analysis and 2022 planning

Thank you to all parents and caregivers for your support and flexibility with regard to our pupil free day on Monday. The day was used to upskill staff in a range of professional areas. Teachers and curriculum support staff reviewed student wellbeing, achievement and growth data, and refined goals and success criteria for the next iteration of our site improvement plan.

School closure day

A friendly reminder that Friday Week 6 (19 November) will be a school closure day. No school staff will be on site and our OSHC will not be open. Capital Works personnel will carry-out preparatory work for our pending building project, and we are hopeful that our decommissioned 'rainbow playground' will also be removed.
